1. Editor Functionality
    1. Make editor pane correct for size for flash notifications.
    2. Add back and close buttons/links
    3. Add Table functionality
    4. Add Bookmarks/Link functionality
2. File Manager Functionality
    1. Make sure that flash notifications will display when appropriate
    2. Make editors open in new window?
    3. Rename Folder functionality
3. Server Functionality
    1. Print/to PDF support
    2. Revisions in DB
    3. Import functionality
4. Bugs
    1. Mostly only works in FF, perhaps a feature and not a bug
